

# AI-Infra Economic Dashboard - One-Page Summary

Governance vs GDP Growth (1996–2024, Global Panel)

## Key statistic

slope=-1.016 | p=1.759455681723864e-14 | n=2785

Note: governance is z-scored (higher = better). Negative slope here reflects maturity effects: advanced economies tend to grow slower.
